

VT series industrial borescope

DELLON VT series high resolution borescope, 360° articulating portable and easy operating. Changeable battery for long time working. Suitable for test pipes or narrow space, fully test all conditions.

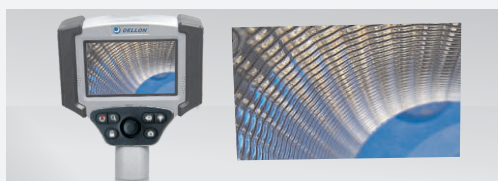

Hand-held designing

Easy operating and long time working.

360°articulating joystick

360° articulating joystick, easy, accurate, and auto reposition, suitable for different conditions.

4.3" high resolution LCD monitor

Tungsten wire

High density tungsten wire, max protect unit, high standard wear resistant and long time working.

WIFI(optional)

mobile phone connect WIFI with VT borescope, can read image, and transfer image to phone.

Battery design

Attachment

Characters

- Ergonomic design, elegant in appearance, comfortable manipulation.
- Independent and replaceable battery handle design, easy for c.
- Tungsten braid cable, wear, pressure and corrosion resistant.
- Motor joystick controlled, 360° rotation, flexible control, improve working efficiency.
- Intelligent image and video functions, convenient for recording inspecting files.
- Adjustable parameters of auto white balance, light sensitivity and exposure time.
- Front high intensive LED lights, adustable 5 level illumination.
- HD 4.3 inch LCD monitor, smooth, real, clear and stable images.

Main parameters

Series	VT4150/4300	VT6150/6300	VT8150/8300/8600
Art.Nr.	1F0610/1F0633	1F0486/1F0615	1F0617/1F0618
Monitor size	4.3"	4.3"	4.3"
F.O.V.	> 90°	> 90°	> 90°
Pixel	350,000	410,000	440,000
Camera diameter	4.5mm	6mm	8.4mm
D.O.V.	8mm~80mm	8mm~80mm/15mm~∞	8mm~80mm/15mm~∞
Cable length	1.5m/3m	1.5m/3m	1.5m/3m/6m
Bending direction	360°all way	360°all way	360°all way
IP rating	IP65	IP65(IP67optional)	IP65(IP67optional)

Applications
